

portfolio

- geothermal site analysis
- feasibility study
- system comparison
- cost analysis
- profitability accounting
- design according german VDI 4640
- Earth Energy Designer 2.0
- design of vertical loop system fields
- prognose of underground temperature
- field tests
- drilling proposals
- site supervision
- monitoring

new:

- geo**ENERGIE**-solar
- geo**ENERGIE**-cooling
- smar**TRT** (compact **T**hermal **R**esponse **T**est)
- measurement of undisturbed ground temperature
